23 October 2017

Dear Parents / Guardians / Taxi and other Transport Executives

It is with great excitement that we announce that Elica has secured a suitable site which contains both the school buildings as well as sports facilities on the same premises! We are permanently going to occupy the new site starting January 2018. Over the last 20 years Elica has evolved and grown tremendously, and in order to continue giving the best to our learners we have decided to relocate.

The school, as well as a pre-school (Gr Pre-R – Gr R) will be accommodated on the same premises. However, our pre-school at our current address will still be operating as normal for Gr 0 – Gr R. The hostel will also be accommodated at the current premises. Hostel children will be transported with a bus on a daily basis to our new school premises.

Immediate benefits coming to mind include amongst other;

- spacious classrooms;
- Ample parking space;
- Preference will be given to all Grade 7 Elica learners for enrolment at Tom Naudè Secondary school for Grade 8, if they so wish.

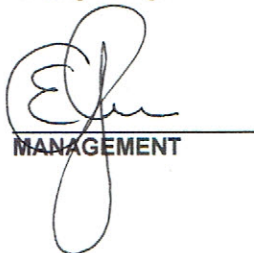

All the above sums up to a more user friendly and educationally conducive environment.

The address of our new premises:

228 - 226 Harley Street, Eduan Park – Polokwane (Find attached hereto a map indicating our new location)

While we trust that **EACH** and **EVERY ONE** of our learners / parents will take hands and join this new venture, we also have to keep in mind that there will be new learners joining us from the surrounding areas and we will need to plan accordingly – we will therefor appreciate if you will indicate on the attached form, whom of our present learners will be relocating with us when schools re-open in January 2018.

Elica greetings
